**Thank you!** Is probably a good start for anyone reading this mini guide.

This is a guide to the new format in which I am looking to get the magazine delivered quickly and efficiently.

The magazine enjoys great support from the Parish in its distribution and is very grateful for the support.

Having done all the rounds myself at some point I am aware of how long each takes and the peculiarities of some houses in the parish.

This guide aims to break the delivery up into 1 to 1.5 hour rounds and then describe / log the peculiarities of each round.

If while doing a round you think of more things to add that might aid a fellow deliverer next time then please let me know.

So thanks again for you support.  
Regards  
Richard Wray

### **See the map on the next page**

Starting at 1 Church St. (1) go up the left hand side of the road.

Don't forget the pub and the cottage just behind it.

Go round Bell close and the last box is directly opposite the pub.

Now as you go back up Church St. immediately on your left (2) are two more cottages that are part of the cottage on Bell close you just delivered to.

At (3) are two deliveries set back from the road. One is the very large house, the other is the little cottage that looks like a converted garage.

The last house on this side of the road is "Saturday House". Please do not deliver to the Church (4) or Manor Farm (5).

Come back down Church St. and very soon you come across a gravel driveway (6) with 2/3 houses on it.

I think there are 3 houses in the row starting with the old bakery. Next is Shortlands close. Once done your back onto Church St. and on the home run.

At (7) is a driveway that takes you to several bungalows that back onto the school field.

And lastly at (8) is the little side road that goes between Church St. and Station Road where the round ends.

Please return any excess copies you have back to me at 2A Station Road.

Thank You!
